Shrestha Jain

Atlanta, GA 30332 | (773) 209-0817 | shrestha.jain05@gmail.com | github.com/ShresthaJain| linkedin.com/in/shrestha-jain-223b43254

EDUCATION

Georgia Institute of Technology *Atlanta, GA*
B.S. in Computer Science *Expected May 2027*
GPA: 3.44 (Dean's List)

Relevant Coursework: Data Structures & Algorithms, Algorithms Honors, Graduate Algorithms, Machine Learning, Intro to Artificial Intelligence, Computer Organization & Programming, Discrete Mathematics, Linear Algebra I & II

North Carolina State University *Raleigh, NC*
Computer Science coursework *Aug 2023 – May 2024*
GPA: 3.7 (Dean's List)

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C++, HTML, CSS

Tools & Frameworks: React, Tailwind CSS, PyTorch, Scikit-learn, NumPy, Pandas, MySQL, Firebase, Vercel, Node-RED, Android Studio, Arduino, Git/GitHub, Jira, Playwright, OpenFace, Nodemailer

Online Course in progress: IITD Forward-Deploy Engineer covering RAG pipelines, Agentic systems, LLM Evaluation and more

EXPERIENCE

Georgia Institute of Technology — Head Teaching Assistant, College of Computing *May 2026 – Present*
- Lead a team of 30+ teaching assistants supporting first-year and transfer students, coordinating workshops and small-group mentoring
- Partner with faculty to keep assignments current and industry-relevant, incorporating emerging AI tools into course material

Teaching Assistant, College of Computing *Aug 2025 – May 2026*
- Ran 5 workshops per semester covering topics from debugging to choosing a CS concentration
- Facilitated 10 cross-year networking sessions connecting 20+ computer science majors
- Delivered detailed feedback on 12 assignments across 30 students to support their academic progress

DrFirst — Talent Acquisition (Technical Track) Intern *Jun 2026 – Aug 2026*
- Built Claude-based tooling to screen resumes at scale, constraining evaluation strictly to skills-based criteria without automated decisions
- Developed recruiting automations, including a LinkedIn candidate-sourcing tool combining Playwright and Claude for Chrome
- Conducted technical screening calls with candidates across experience levels, assessing fit for engineering roles

Start-Up (Stealth Mode) — Software Engineering Intern *May 2024 – Aug 2024*
- Redesigned the front-end in React with a more intuitive layout and iconography, improving accessibility and usability
- Built 2 full-stack applications in C++ and React, iterating on usability at each stage of development
- Integrated Node-RED to automate door control logic, enabling seamless transitions between "night" and "day" modes

Community Engagement:

Prosthetic building for trans-radial arm amputees – Medical Robotics Club *August 2026 – Present*
- Spearheaded the machine learning sub team to train models to map EMG signals from the hand to map to gestures
- Collaborated across mechanical and electrical teams to ensure all pieces of prosthetic arm were compatible with each other

GT Softball Team Analytics (Vertically Integrated Project) *Aug 2025 – Present*
- Led a sub-team within Georgia Tech's Vertically Integrated Project, partnering with coaches to deliver machine-learning-powered player analytics and personalized player dashboards
- Built and compared 4 ML models, including random forest and XGBoost, to develop a pitch classifier with supporting visualizations

PROJECTS

Machine Learning Error-Detection System — Georgia Tech *Jan 2026 – May 2026*
- Achieved an 80% F1-score with an LSTM model detecting deception from micro-expression data processed via OpenFace computer vision
- Built computer vision for playing-card identification and a poker AI to drive real-time gameplay decisions
- Reached 75% accuracy testing the system on an AI-powered Texas Hold 'Em robot for real-time deception detection
- Co-authored an in-depth publication-level paper covering the system's motivations, methodology, and results

Full-Stack Consulting Website — sjglobalconsulting.com *Jun 2025 – Present*
- Built a full-stack site in React and Tailwind CSS with partner/service request forms, increasing outreach 95%
- Integrated 3 APIs (Firebase, Nodemailer, WordPress) for authentication, email, and content workflows
- Deployed and maintain a production site serving hundreds of active users; currently implementing SEO improvements

Personal Finance Web Application *Jan 2025 – Apr 2025*
- Collaborated on a 3-feature web app supporting authentication, income/expense tracking, and spending visualization
- Managed a 4-branch Git workflow and resolved merge conflicts, coordinating sprints in Jira using agile practices

ADDITIONAL SKILLS & INTERESTS

Languages: Fluent in English and Hindi; intermediate Spanish **Interests:** Reading, Rowing Club, Crochet
